**Tree Management Plan**

**Schedule of Works**

**Site: Weston on the Green Parish Council**

**Date: April 2024**

Tag No.	Location	Species	Diameter (cm)	Height (m.)	Age Class	Condition	Recommendations	Priority months	Next Survey months
0.1	Duck Pond	Lime	40	10	M	Fair. Heavily Ivy clad (cut). Crown in contact with ABC power supply.	No Work Required.	-	36
0.2	Duck Pond	Blackthorn	20	8	M	Fair. Phototropic, asymmetric south. Heavily Ivy clad providing good bird nesting habitat. Crown obstructing neighbouring driveway access. Crown in contact with the BT cable.	Crown raise to 4.5m above the driveway and cut back from the BT cables to create 1m clearance.	MR	36
0.3	Duck Pond	Blackthorn	20	8	M	Fair. Phototropic, asymmetric south. Heavily Ivy clad providing good bird nesting habitat. Crown obstructing public highway. Crown in contact with the BT cable.	Crown raise to 4.5m above the highway and cut back from the BT cables to create 1m clearance.	MR	36
0.4	Duck Pond	Weeping Birch	20	5	M	Heavily phototropic, asymmetric north-east. Crown obstructing the public highway.	Crown raise to create 4m highways clearance.	MR	36
1	Duck Pond	Goat Willow	0	7	M	Good. Typical form and condition for species and location. Not within falling distance of public access. Retention requested by neighbouring resident for screening from North Lane.	No Work Required.	-	36
2	Duck Pond	Silver Birch	25	12	M	Fair. Twin-stemmed from near ground level with a tight included union. Not within falling distance of public access. Retention requested by neighbouring resident for screening from North Lane.	No Work Required.	-	36
3	Duck Pond	Crack Willow	20	3 + 6	M	Fair. Multi-stemmed from 0.3m, arising from a lateral branch or fallen stem extending from the bank, partially submerged. Not within falling distance of public access. Retention requested by neighbouring resident for screening from North Lane.	Re-pollard/reduce to 1.5m above the lateral stem.	12	36
3.1	Duck Pond	Sorbus	15	8	OM	Poor. Tri-stemmed from near ground level with numerous areas of dysfunctional timber 0-3m, extensive decay present within one co-dominant stem west.	Consider removal	MR	36
3.2	Duck Pond	Ash	35	15	M	Fair. Twin-stemmed from 1m with a tight included union. Class 1-2 Ash Dieback. Confirm ownership.	Re-inspect Summer 2024	3	36

Tag No.	Location	Species	Diameter (cm)	Height (m.)	Age Class	Condition	Recommendations	Priority months	Next Survey months
3.3	Duck Pond	Ash	35	15	M	Fair. Twin-stemmed from 4m. Heavily Ivy clad restricting full visual assessment. Confirm ownership.	Re-inspect Summer 2025	3	36
4	Oak Tree Pond	Weeping Willow	70	10 + 6	M	Fair. A slight to moderate phototropic lean east with strong buttress root formation. Twin-stemmed at 3m, main union appears sound. Historic fire damage at 3-4.5m south on the main stem and the underside of a large lateral branch, occluding. Lopped and topped at 10m in 2019 with several meters of vigorous re-growth, branch tips in contact with ABC power supply.	Re-pollard	9	36
5	The Stocks	Sycamore	45	16	M	Good. Twin-stemmed at 5m, main union appears sound. An open grown tree with a broad spreading crown, lions tailing of the low laterals north and east has resulted in over extended branches which are encroaching on the highway. Some major deadwood. Branch tips in contact with the ABC power supply.	Remove five lateral branches at 2.5-4m south-west to create 4.5m highways clearance. Crown raise to create 2.25m pedestrian access.	MR	36
6	The Stocks	Sycamore	45	16	M	Good. Slightly phototropic/asymmetric east. Twin-stemmed at 6m, main union appears sound. Low canopy. Lions tailing has created a dominant lateral at 3m south. Branch tips in contact with the ABC power supply.	Remove up to 3.5m from the co-dominant lateral at 3m south to reduce apical dominance. Remove major deadwood. Crown raise to 2.25m to permit pedestrian access.	MR	36
528	The Spinney Jubilee Playing Field	Goat Willow	10	3	D	Dead. Obstructing the footpath.	Fell/remove to clear the footpath	1	-
529	The Spinney Jubilee Playing Field	Ash	30	15	M	Class 2-3 Ash Dieback. Confirm Ownership.	Fell	12	-
530	The Spinney Jubilee Playing Field	Ash	45	17	M	Class 2 Ash Dieback.	Fell	12	-

Tag No.	Location	Species	Diameter (cm)	Height (m.)	Age Class	Condition	Recommendations	Priority months	Next Survey months
531	The Spinney Jubilee Playing Field	Ash	25	15	M	Class 2-3 Ash Dieback.	Fell	12	-
532	The Spinney Jubilee Playing Field	Hazel	10	5	M	Obstructing the footpath.	Cut back to permit pedestrian access.	12	
533	The Spinney Jubilee Playing Field	Ash	40	16	M	Class 2-3 Ash Dieback. Risk to the Highway.	Fell	12	-
534	The Spinney Jubilee Playing Field	Ash	40	17	M	Class 2 Ash Dieback.	Fell	12	-
535	The Spinney Jubilee Playing Field	Ash	25	17	M	Class 2 Ash Dieback.	Fell	12	-
536	The Spinney Jubilee Playing Field	Ash	30	17	M	Class 3-4 Ash Dieback.	Fell	12	-
537	The Spinney Jubilee Playing Field	Ash	45	18	M	Class 2-3 Ash Dieback.	Fell	12	-
538	The Spinney Jubilee Playing Field	Ash	25	16	M	Class 3 Ash Dieback.	Fell	12	-

Tag No.	Location	Species	Diameter (cm)	Height (m.)	Age Class	Condition	Recommendations	Priority months	Next Survey months
539	The Spinney Jubilee Playing Field	Ash	25	17	M	Class 2-3 Ash Dieback.	Fell	12	-
540	The Spinney Jubilee Playing Field	Elm	20	7	D	Dead	Fell	12	-
541	The Spinney Jubilee Playing Field	Ash	15	12	D	Dead	Fell	12	-
542	The Spinney Jubilee Playing Field	Ash	30	17	M	Major deadwood at 5m.	Remove major deadwood.	12	36
543	The Spinney Jubilee Playing Field	Ash	30	17	M	Major deadwood at 5m.	Remove major deadwood.	12	36
